Managing Residuals in a Complex World

The Northeast Residuals & Biosolids Conference

October 25 - 27 • Burlington, Vermont

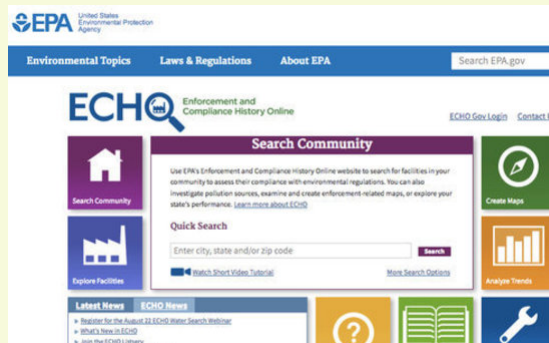

Agenda available!

Registration open! [Details...](#)

U. S. EPA Posts 2016 Electronic Biosolids Data Online

Beginning this past winter,
U. S. EPA required most
biosolids management

Caption Contest

[Submit a caption](#) for this photo (man, cat, manure lagoon).

Deadline: September 29th.

Best caption wins a hat!

CHECK IT OUT...

New video: Another in the series of fine biosolids videos from the King County (Seattle) Loop program. "If we don't use biosolids... to enrich our soil, what else can we do with them?" [See it.](#)

The DC Water Class A biosolids program was the focus of a recent [Washington Post article](#). DC Water will present details at the [Northeast R & B Conference](#) in October.

The American Biogas Council (ABC) will teach you the ABCs of anaerobic digestion next June, 2018. [See details...](#)

The Raleigh, NC biosolids program's sunflowers caused quite a stir... [Details...](#)

Kern County, CA settles... Biosolids land application was never stopped by local voter initiative, despite more than a decade of legal wrangling. See

programs to submit their annual biosolids reports electronically.... Now, the 2016 data collected this year are being provided online for public consumption through the standard EPA ECHO database system. A total of 1,955 reports are included. The system allows for searches using a variety of options.... [More...](#)

Bucklin Point Green Energy

On July 18th, the Narragansett Bay Commission (NBC) generously hosted a NEBRA tour of the upgraded anaerobic digestion and planned combined heat and power (CHP) systems at the Bucklin Point WWTF. Barry Wenskowicz led the tour.

Wenskowicz estimates that off-site solids management – landfill disposal and incineration – generate the WWTF's largest proportions – about 2/3 – of greenhouse gas emissions, much in the forms of methane and nitrous oxide. To address that, and to help meet NBC's aggressive goal of achieving 100% sustainable electricity generation, the Bucklin Point facility is installing CHP to fully utilize the biogas produced in the anaerobic digesters....

In Brief / en bref...

- As of August 31st, Rick Stevens retired from U. S. EPA and its biosolids program...
- New York DEC has finalized its new Part 360 solid waste (materials management) regulations....
- Biosolids reviewed in PA....
- James Ehlers, sometimes biosolids critic, declares run for Governor of Vermont...
- The District of Columbia was the first jurisdiction in the U. S. to regulate disposal of wipes. Now, the U. S. Congress may try to annul that law....
